Stepan,

This is what I have so far. One worksheet sorted by received date with YELLOW cells that need a MAIN ID added by reviewers if they so choose or by me if they choose not to and another worksheet sorted by Project Name for the reviewers to see what MAIN ID's have been used in the past for a specific projects. I want to clean it up more.

I Still need to create and test a MAIN ID LOOKUP LIST in SharePoint to hold **future** sequential MAIN IDs for lookup by reviewers to accept a new MAIN ID so when they enter their new projects into the NEPADS they can use the new MAIN ID from the MAIN ID LIST or they can use an old MAIN ID from a drop down LIST I will create from the worksheet sorted by the project description. They will have to ADD a new record into the MAIN ID LOOKUP LIST with the new project name next to the sequential MAIN ID or they can use an old MAIN ID if they so choose.

Thanks, [] Do you think you can have the list of proposed main ID #s in a spreadsheet completed today?

Stepan

Dear Stepan,

The items below are on my list to work on today unless something else might come up.

1. Review NEPADS TYPE changes in the DEVELOPMENT Environment.
2. Work on planning the NEPADS MAIN ID cleanup Project.
3. Review video of Office 365 Tech Forum.
4. PLANNER Workshop
5. Sign up for June OFFICE365 Training.
6. Work day 6:15am thru 2:45pm unless something else comes up.

Have a nice day,

[]
